

ASF eSoaring league Final Round 5th November 2017

We were greeted with lovely sunny weather to start with but it was cold which did cause issues for a couple of flyers not getting 100% delivery from their lipo's, (well that was my excuse anyway).

Also, there was a steady wind of around 10mph which gusted probably to around 20mph at its peak making landings a tad precarious. It probably felt worse than it was due to the low temperature, but fortunately it did warm up as the day progressed.

Well done to Bill for coming home in first place and also to Glyn for doing so well considering he was flying a lightweight Mk1 Radian Foamy. We were all getting a bit worried as he nearly won his first slot and then went on to win his second one. Fortunately, though for the rest of us the humiliation stopped there as his luck didn't last for the rest of the day.

All in all, thanks to everyone for turning up on the day to make the comp a success.
